# END USER SOFTWARE LICENSE AGREEMENT

INSTALLING OR USING THIS SOFTWARE PRODUCT CONSTITUTES YOUR ACCEPTANCE OF THE FOLLOWING TERMS AND CONDITIONS. IF YOU DO NOT ACCEPT THESE TERMS, YOU MAY NOT INSTALL OR USE THIS SOFTWARE, AND YOU MUST PROMPTLY UNINSTALL THE SOFTWARE OR RETURN THE SOFTWARE TO THE LOCATION WHERE YOU OBTAINED IT.

## 1. GRANT OF LICENSE:

This is a legal agreement between you, the end-user (either an individual or an entity, "You"), and TOSHIBA TEC Corporation ("TTEC")(Unless otherwise separately agreed between you and TTEC or its suppliers.). This software, fonts (including their typefaces) and related documentation (Collectively, "Software") is licensed under terms and conditions in this License Agreement. You may use Software installed on your own electronic device (including but not limited to a laptop computer, a notebook computer, a tablet computer, a smartphone) in a network environment which your own electronic device is connected to and communicates with a TTEC MFP ("System") in accordance with the terms and conditions contained in this License Agreement. The copyright and any other intellectual property rights, title and ownership of Software is proprietary and belonging to TTEC and/or its suppliers. TTEC disclaim responsibility for the installation and/or use of Software, and for the results obtained by using Software. You may use one or more copies of Software in the System as installed on your own electronic device(s) in compliance with any of the following License Types: (1) Node License (effective on a single electronic device), (2) Domain License (effective on one or more electronic devices in a network domain which has its domain name), (3) Subnetwork License (effective on one or more electronic devices in a subnetwork defined by subnet mask 255.255.255.0). You may not copy or use Software beyond the scope of the License Type You choose. Any copies of Software shall be subject to the terms and conditions of this License Agreement. You may not, nor cause or permit any third party to, modify, adapt, merge, translate, reverse compile, reverse assemble, or reverse engineer Software. You may use Software, only in accordance with this License Agreement. The title and intellectual property rights in and to Software will remain the exclusive property of TOSHIBA TEC and/or its suppliers, and You will not acquire any rights to Software, except the license expressly set forth herein. You may not use, have access to source code of Software. You may not perform modification, deletion, or any act to the copyright notice of Software (including its copies). You will be held legally responsible for any copyright infringement, unauthorized transfer, reproduction or use of Software.

## 2. TERM AND TERMINATION:

This License Agreement is effective until terminated by TTEC at its discretion or upon your failure to comply with any term of this License Agreement. Upon termination, You agree to uninstall, return or destroy Software including all copies of Software. In addition to the above, You may terminate this License Agreement at any time by uninstalling, returning or destroying Software and all copies.

## 3. DISCLAIMER:

Software is provided "AS IS" without warranty of any kind, either express or implied, including, but not limited to, the warranties of merchantability, fitness for a particular purpose, title, and non-infringement. TTEC disclaims any warranty relating to the quality and performance of Software. If Software proves defective, You (and not TTEC) shall be responsible for the entire cost of all necessary repair, modification, or servicing. TTEC does not warrant that the functions contained in Software will meet your requirements or that the operation of Software will be uninterrupted or error free or that Software will have no defects.

## 4. UPDATE AND DISCONTINUE

TTEC may update, upgrade and discontinue Software without any restriction.

## 5. THIRD PARTY SOFTWARE

There are cases in which third party software is contained in Software (including future updated and upgraded versions). Such third party software is provided to You on different terms and conditions from those of this License Agreement. The use of such third party software is subject to agreements or readme files (or files similar to readme files) provided separately from this License Agreement ("Separate Agreements, etc."). When You use the third party software, You must comply with the terms and conditions of the third party software stated in the Separate Agreements, etc.

## 6. LIMITATION OF LIABILITY:

IN NO EVENT WILL TTEC BE LIABLE TO YOU NOR ANY THIRD PARTY FOR ANY DAMAGES, WHETHER IN CONTRACT, TORT, OR OTHERWISE (EXCEPT PERSONAL INJURY OR DEATH RESULTING FROM GROSS NEGLIGENCE OF TTEC), INCLUDING WITHOUT LIMITATION ANY LOST PROFITS, LOST DATA, LOST SAVINGS OR OTHER INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE SOFTWARE, EVEN IF TTEC OR ITS SUPPLIERS HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## 7. U.S. GOVERNMENT RESTRICTED RIGHTS:

The Software is provided with RESTRICTED RIGHTS. Use, duplication or disclosure by the U.S. Government is subject to restrictions set forth in subdivision (b)(3)(ii) or (c)(1)(ii) of the Rights in Technical Data and Computer Software Clause set forth in DFARS 252.227-7013, or DFARS 52.227-19 (c)(2), as appropriate.

## 8. GENERAL:

You may not sublicense, lease, rent, assign or transfer this license or Software. Any attempt to sublicense, lease, rent, assign or transfer any of the rights, duties or obligations hereunder shall be null and void. You agree that you do not intend to, and will not ship, transmit, export or re-export (directly or indirectly) Software, including any copies of Software, or any technical information contained in Software or its media, or any direct product thereof, to any country or destination prohibited by government of Japan, the United States and the relevant country. This license shall be governed by the laws of Japan or, at the election of a Supplier of TTEC concerned with a dispute arising from or relating to this Agreement, the laws of the Country designated from time to time by the relevant Supplier of TTEC. If any provision or portion of this License Agreement shall be found to be illegal, invalid or unenforceable, the remaining provisions or portions shall remain in full force and effect.

YOU ACKNOWLEDGE THAT YOU HAVE READ THIS LICENSE AGREEMENT AND THAT YOU UNDERSTAND ITS PROVISIONS. YOU AGREE TO BE BOUND BY ITS TERMS AND CONDITIONS. YOU FURTHER AGREE THAT THIS LICENSE AGREEMENT CONSTITUTES THE ENTIRE AGREEMENT BETWEEN YOU AND TTEC AND ITS SUPPLIERS AND SUPERSEDES ANY PROPOSAL OR PRIOR AGREEMENT, ORAL OR WRITTEN, OR ANY OTHER COMMUNICATION RELATING TO THE SUBJECT MATTER OF THIS LICENSE AGREEMENT.

## About e-BRIDGE Job Point eX

### What is e-BRIDGE Job Point eX?

e-BRIDGE Job Point eX is a driver Plug-in that automates the process of printing the same document to multiple TOSHIBA printers with a single print job, a maximum of ten printers can be printed to at the same time.

e-BRIDGE Job Point can set an option to automatically split the number of copies evenly between all of the selected printers.

### The minimum requirements to use e-BRIDGE Job Point eX

To use any e-BRIDGE Solutions Plug-in for Printer Driver, you must have:

- A TOSHIBA Multi-Function Device
- The TOSHIBA Universal Printer 2 / Universal PS3 or Universal XPS Driver installed on a supported Windows OS.

Printer Driver Version: 7.71.2651.1 or later

Please refer to the release documentation of your installed Printer Driver for the supported Windows Operating Systems and TOSHIBA MFPs.

## Installing the TOSHIBA e-BRIDGE Job Point eX

### <Notes>

To perform installation, you must log onto Windows with the “Administrator” account; this enables the installation and uninstallation of client software.

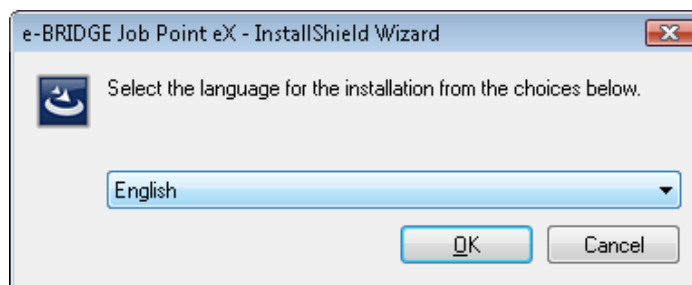

### <Notes>

Depending upon the status of your PC, VC++ redistributable package and/or .NET Framework 4.5.2 will be automatically installed.

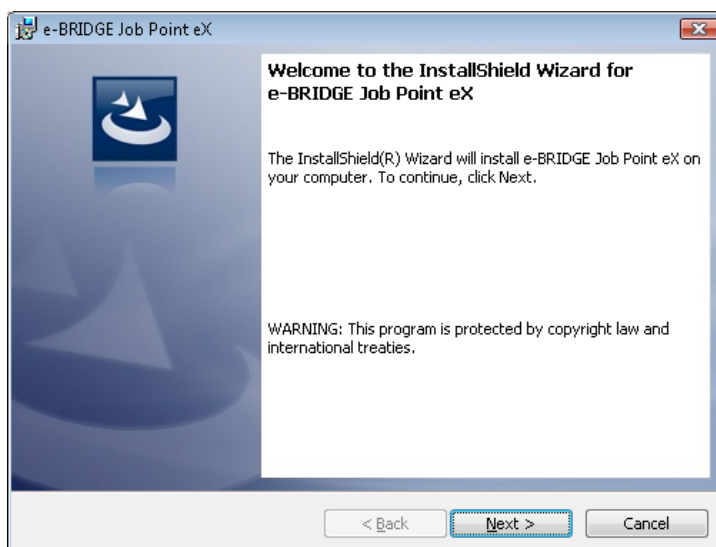

### <Notes>

It may be required to restart the computer during installation.

- 1 Double-click the JPPSetup.exe file in your e-BRIDGE Job Point eX package
- 2 Select install Language.

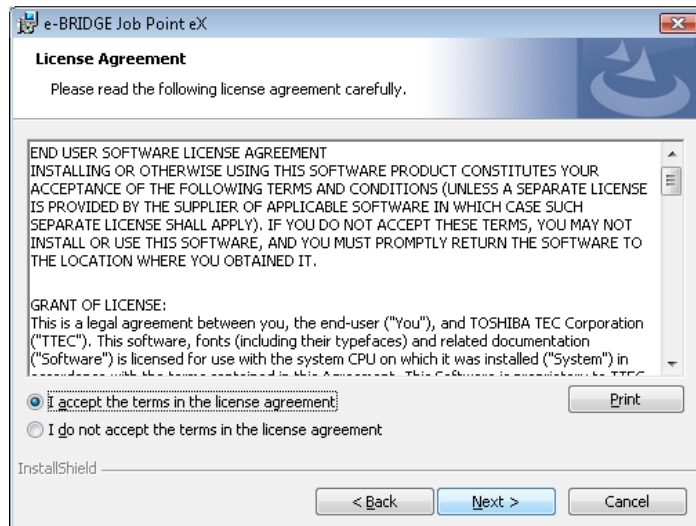

- 3 Click 'Next' at this dialog:

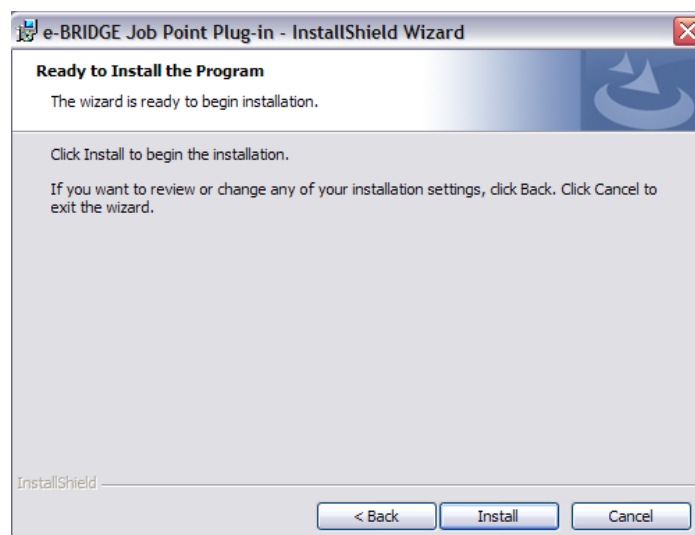

- 4 Read the license agreement, and if you accept the terms, select the option “I accept the terms in the license agreement” and then click ‘Next’:

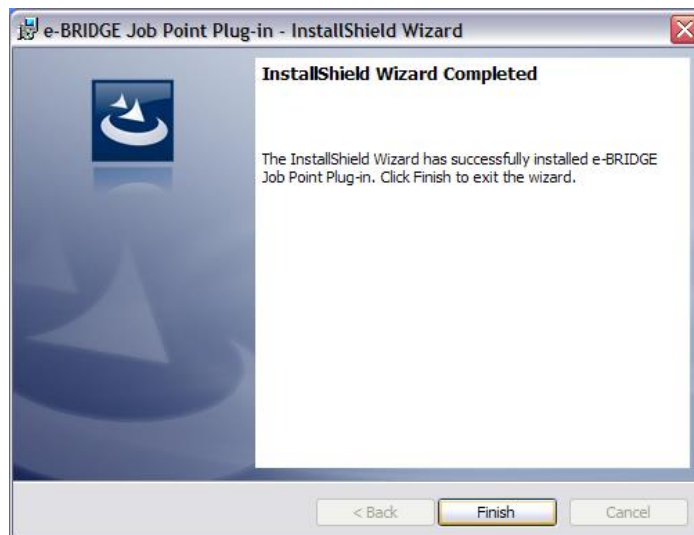

- 5 Click 'Install' to begin installing this software:

- 6 Click 'Finish' to complete the install.

## e-BRIDGE Job Point eX User Guide

# Using e-BRIDGE Job Point eX

**1** Print the document from your Windows application as per normal.

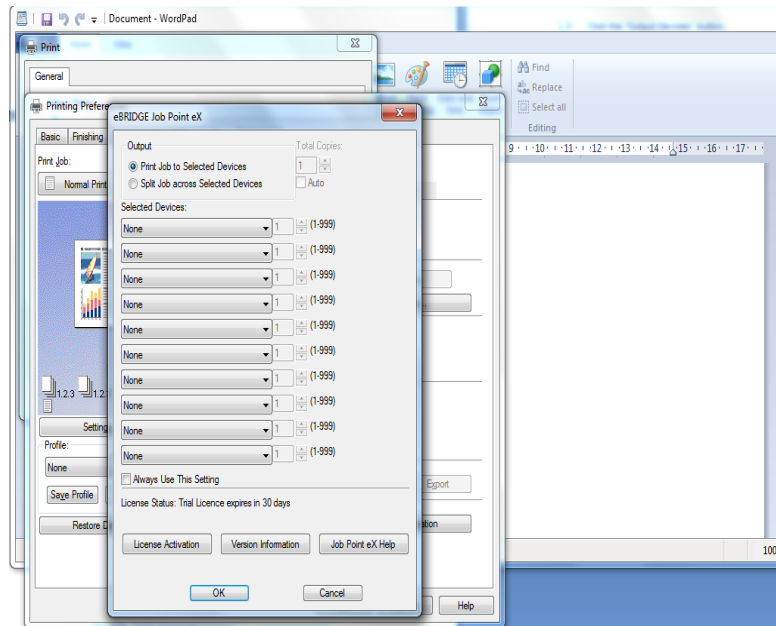

1.1 You may modify any driver settings such as duplex, stapling, hole-punching and so on.

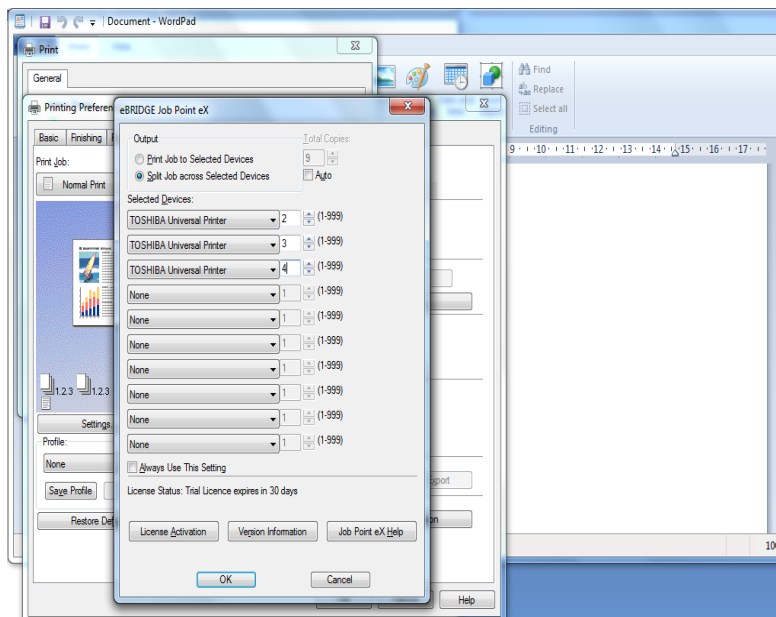

1.2 Select the "Others" tab.

### 1.3 Click the “Output Devices” button

### 1.4 Once selection completed click the “OK” Button.

## Separation setting

### i. Print job to Selected Devices

Same Print job is sent to all selected devices.

### ii. Split job across selected printer (Auto)

Copies counts are separated automatically by click a check box of “Auto” and setting “Total copies” and devices.

The screenshot shows the 'e-BRIDGE Job Point eX' dialog box. The 'Output' section has two radio buttons: 'Print Job to Selected Devices' and 'Split Job across Selected Devices'. The 'Split Job across Selected Devices' option is selected and underlined. To the right, the 'Total Copies' is set to 6, and the 'Auto' checkbox is checked. Below this, the 'Selected Devices' section lists three printers: 'TOSHIBA Universal Printer 2', 'TOSHIBA Universal PS3', and 'TOSHIBA Universal XPS'. Each printer has a dropdown menu showing 'None' and a numeric input field set to 2. The total number of copies for each printer is shown as '(1-999)'. At the bottom, there is a checkbox for 'Always Use This Setting' (unchecked), a 'License Status' field showing 'Licensed for subnet', and three buttons: 'License Activation', 'Version Information', and 'Job Point eX Help'. At the very bottom are 'OK' and 'Cancel' buttons.

Selected Devices:	Copies	Total
TOSHIBA Universal Printer 2	2	(1-999)
TOSHIBA Universal PS3	2	(1-999)
TOSHIBA Universal XPS	2	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)

iii. Split job across selected printer (each device setting)

You can decide each devices and copies counts yourself.

The screenshot shows the 'e-BRIDGE Job Point eX' dialog box. The 'Output' section has two radio buttons: 'Print Job to Selected Devices' (unselected) and 'Split Job across Selected Devices' (selected). To the right, 'Total Copies:' is set to 6, with an 'Auto' checkbox. Below, the 'Selected Devices:' section lists several printers. The first three are highlighted with a red rectangle: 'TOSHIBA Universal Printer 2' (3 copies), 'TOSHIBA Universal PS3' (2 copies), and 'TOSHIBA Universal XPS' (1 copy). The remaining seven entries are 'None', each with 1 copy. At the bottom, there is an 'Always Use This Setting' checkbox, a 'License Status: Licensed for subnet' label, and buttons for 'License Activation', 'Version Information', 'Job Point eX Help', 'OK', and 'Cancel'.

Device	Copies	Range
TOSHIBA Universal Printer 2	3	(1-999)
TOSHIBA Universal PS3	2	(1-999)
TOSHIBA Universal XPS	1	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)
None	1	(1-999)

iv. Print job as per normal

## License Activation

License activation can be performed by either one of the following methods.

- 1.1. Manual activation from plug-in GUI.
- 1.2. Activation by using License Activation Client.

### 1. Manual activation from plug-in GUI.

#### 1.3. Trial License Creation

1.3.1. The first time you install e-BRIDGE Job Point eX a 30 day trial is created automatically.

1.3.2. The software will stop working at the end of the trial period, at which point you must register with a valid serial number in order to continue using it.

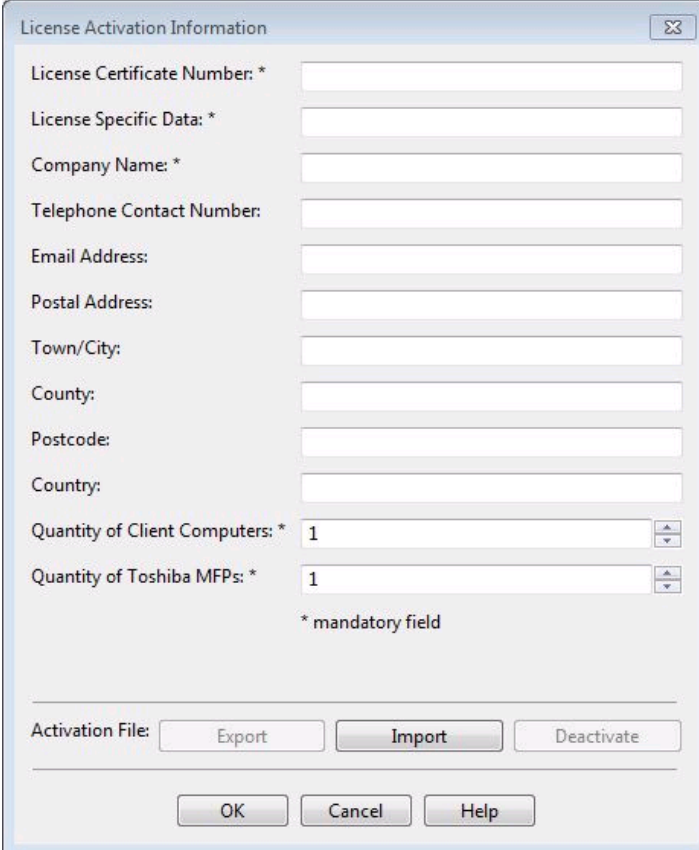

1.3.3. Note:

1.3.3.1. Trial Licenses only work on the machine they are created on, please do not distribute Trial License to other machines.

## 2. License Activation Request

- 2.1. To activate your license for e-BRIDGE Plug-in solution, select "License Activation" on the Plug-in solution screen of your Printer Driver. The License Activation Information dialog should be displayed.

## e-BRIDGE Job Point eX User Guide

The image shows a 'License Activation Information' dialog box. It contains several input fields for registration data. The fields are: License Certificate Number: \* (mandatory), License Specific Data: \* (mandatory), Company Name: \*, Telephone Contact Number:, Email Address:, Postal Address:, Town/City:, County:, Postcode:, Country:, Quantity of Client Computers: \* (mandatory, with a spinner set to 1), and Quantity of Toshiba MFPs: \* (mandatory, with a spinner set to 1). A note at the bottom states '\* mandatory field'. At the bottom of the dialog, there is an 'Activation File:' section with 'Export', 'Import', and 'Deactivate' buttons. Below this are 'OK', 'Cancel', and 'Help' buttons.

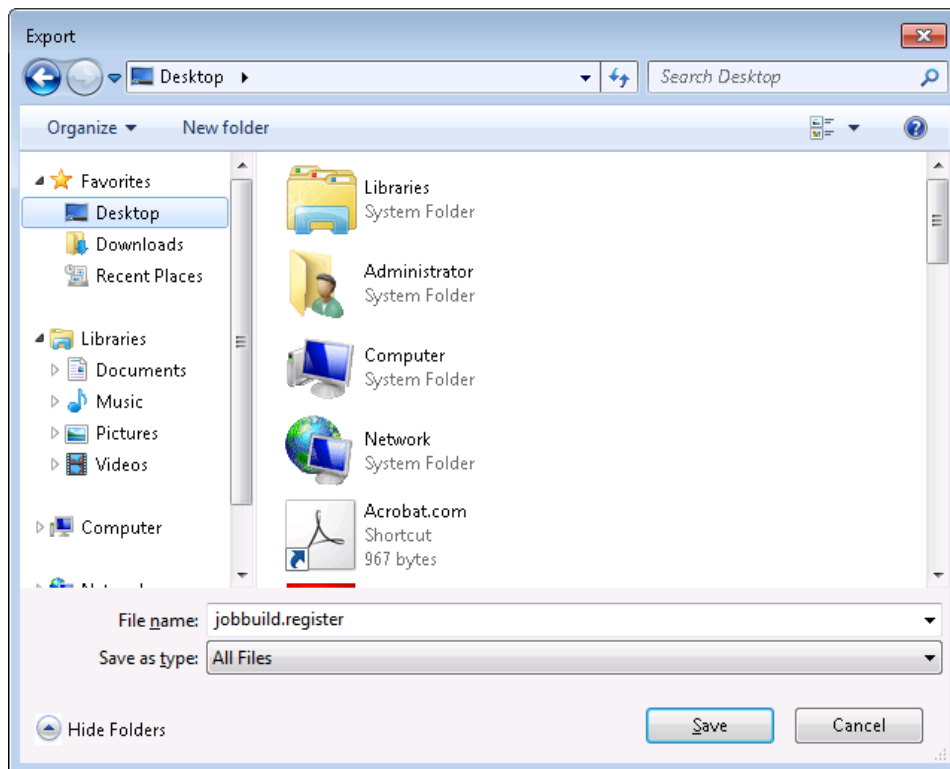

License Certificate Number: *	<input type="text"/>
License Specific Data: *	<input type="text"/>

Activation File:

2.2. Enter the License Certificate Number supplied by your Toshiba representative at the time of purchase. And Enter License Specific Data if you purchase license of Node locked, Subnet Locked or Domain Locked. Enter the registration data. Ensure that all items denoted as mandatory are completed. If a mandatory field is not completed, the export button will not be active.

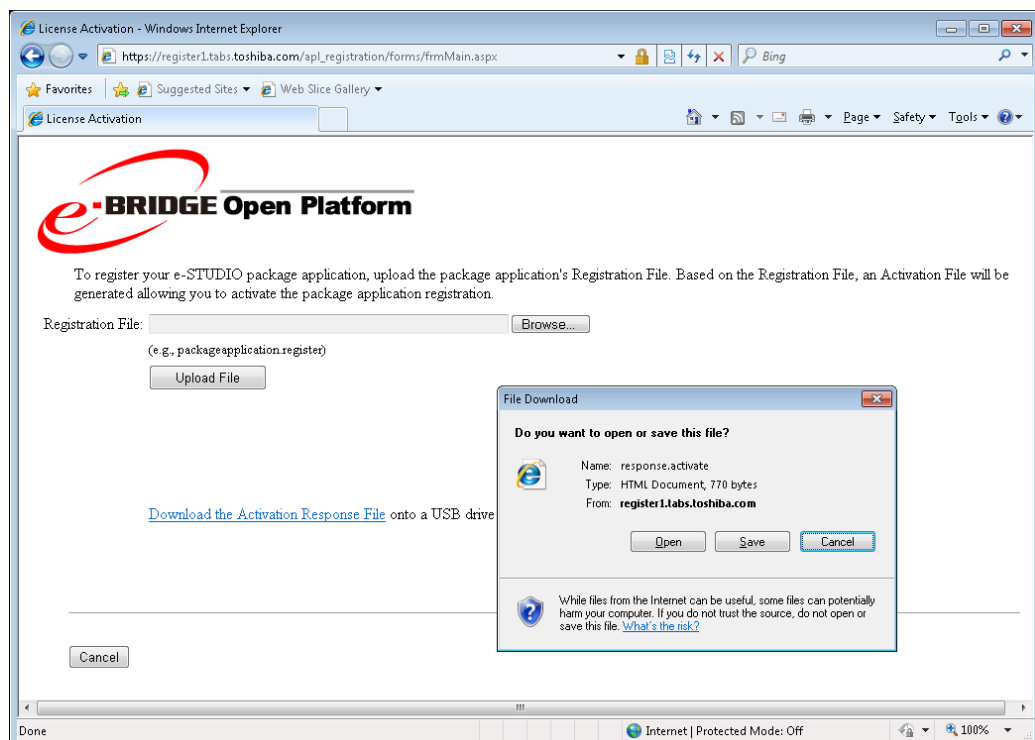

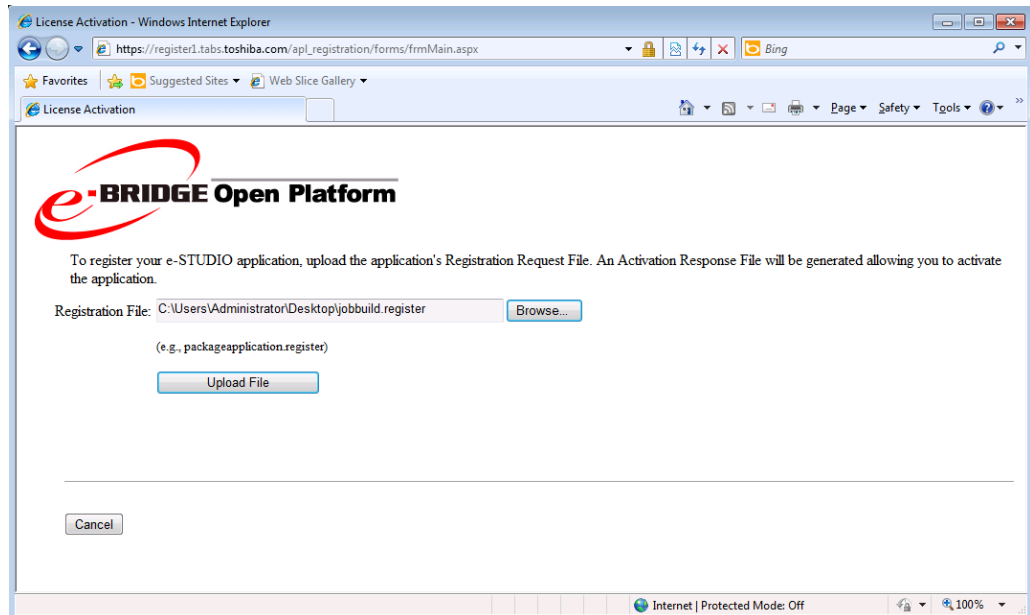

2.3. When the Registration Information is complete, selecting the Export button will open a dialog prompting the user for a directory to save the License Activation Request File. The filename will be set by default. Please do not change the filename.

- 2.4. Your License Activation Request File contains the License Code and your site information that will be used to generate an Activation File by the Registration Server. Take the downloaded Activation Request File to a computer that has internet access and enter the URL of the e-BRIDGE Registration Web Portal: [http://www.copiers.toshiba.com/apl\\_registration/](http://www.copiers.toshiba.com/apl_registration/). From the Registration Web Portal, click the "Register an Application" button from the Home page.

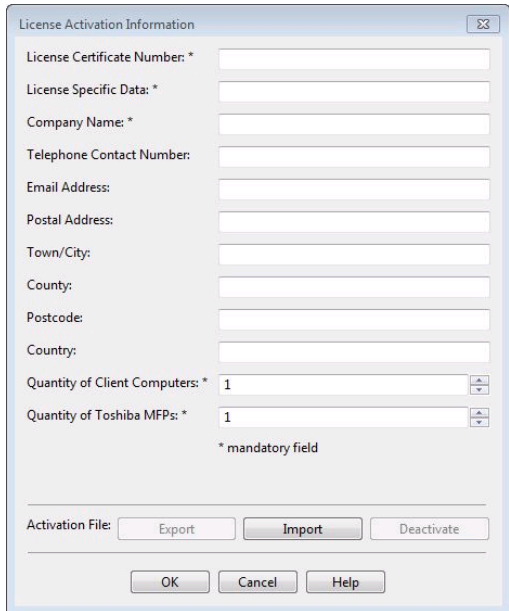

- 2.5. Browse for the Registration File (exported from Plug-in) and then upload the file by clicking the Upload File button. Once a License Activation Request File has been uploaded, the system will generate an Activation File. Once the Activation File is generated, a link to download the License Activation Response File will be shown. Download the Activation Response File. The Activation Response File name will be the uploaded filename with an ".activate" file extension.

## Completing License Activation

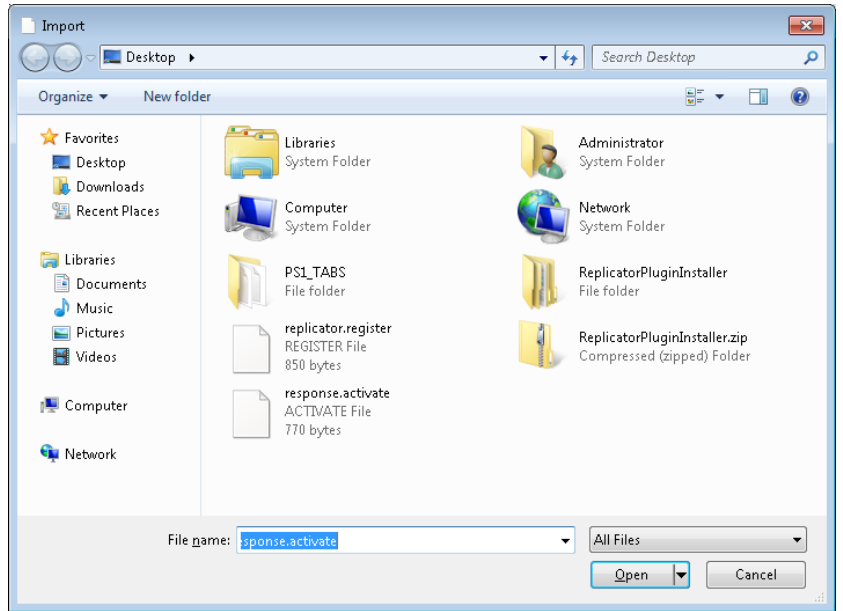

2.6. To complete your license activation for e-BRIDGE Plug-in solution, select “License Activation” on the Plug-in solution tab of your Printer Driver.

2.7. Select “Import” on the License Activation Information dialog. Browse to the location of your “\*.activate” file and select “Open”. Your Plug-in solution is now licensed and ready for use. The License Activation Information dialog should be populated with the information that was supplied with the license.

The 'License Activation Information' dialog box contains the following fields and controls:

- License Certificate Number: \*
- License Specific Data: \*
- Company Name: \*
- Telephone Contact Number:
- Email Address:
- Postal Address:
- Town/City:
- County:
- Postcode:
- Country:
- Quantity of Client Computers: \* (set to 1)
- Quantity of Toshiba MFPs: \* (set to 1)
- \* mandatory field
- Activation File: Export Import Deactivate
- OK Cancel Help

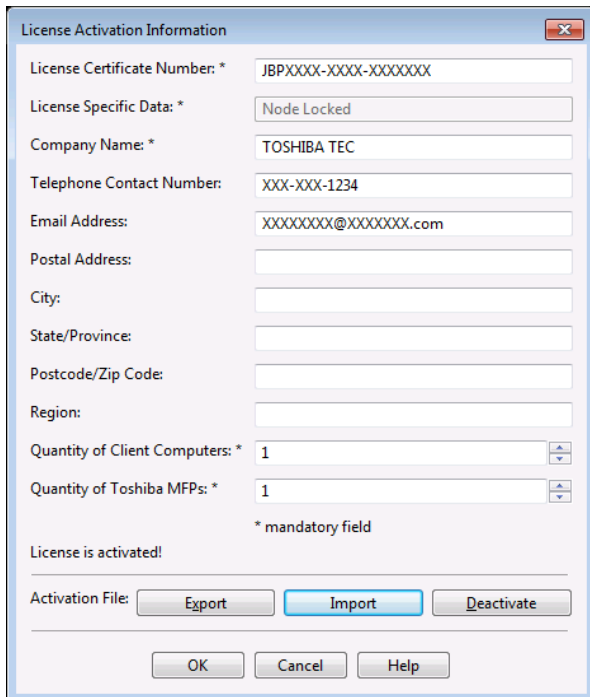

## License Distribution

2.8. Once the License Activation Process is complete, Subnet Locked and Domain Locked licences can be distributed to any other desired client machine in the licensed Subnet or Domain. Job Build eX will detect the license file, verify the licence data and enable the Plug-in. Locate “jobbuild.ini” file in the C:\Program Files\TOSHIBA\eSTUDIO folder of the client used to activate the license. Copy this file to the C:\Program Files\TOSHIBA\eSTUDIO folder of other eligible client machines.

### 3. License Deactivation

3.1. To de-activate your license for e-BRIDGE Plug-in solution, select “License Activation” on the Plug-in solution tab of your Printer Driver. The License Activation Information dialog should be displayed. License Deactivation is only available for Node Locked Licenses which have already been activated. The “Deactivate” button will be enabled.

3.2. Selecting the Deactivate button will open a dialog prompting the user for a directory to save the License Deactivation File. The filename will be set by default. Please do not change the filename.

- 3.3. Your License Deactivation File will read by the Registration Server and your Plug-in solution will be deactivated. Take the downloaded Deactivation File to a computer that has internet access and enter the URL of the e-BRIDGE Registration Web Portal: [http://www.copiers.toshiba.com/apl\\_registration/](http://www.copiers.toshiba.com/apl_registration/). From the Registration Web Portal, click the "Unregister an Application" button from the Home page. Browse for the Deactivation File (exported from Plug-in) and then upload the file by clicking the Upload File button.

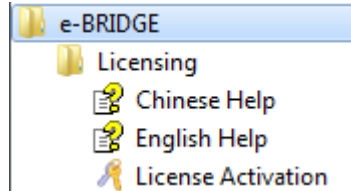

- 3.4. The License Deactivation File name will be the uploaded filename with an ".deactivate" file extension. Once a License Deactivation File has been uploaded, the system will unregister the package application and the serial number will be released automatically.

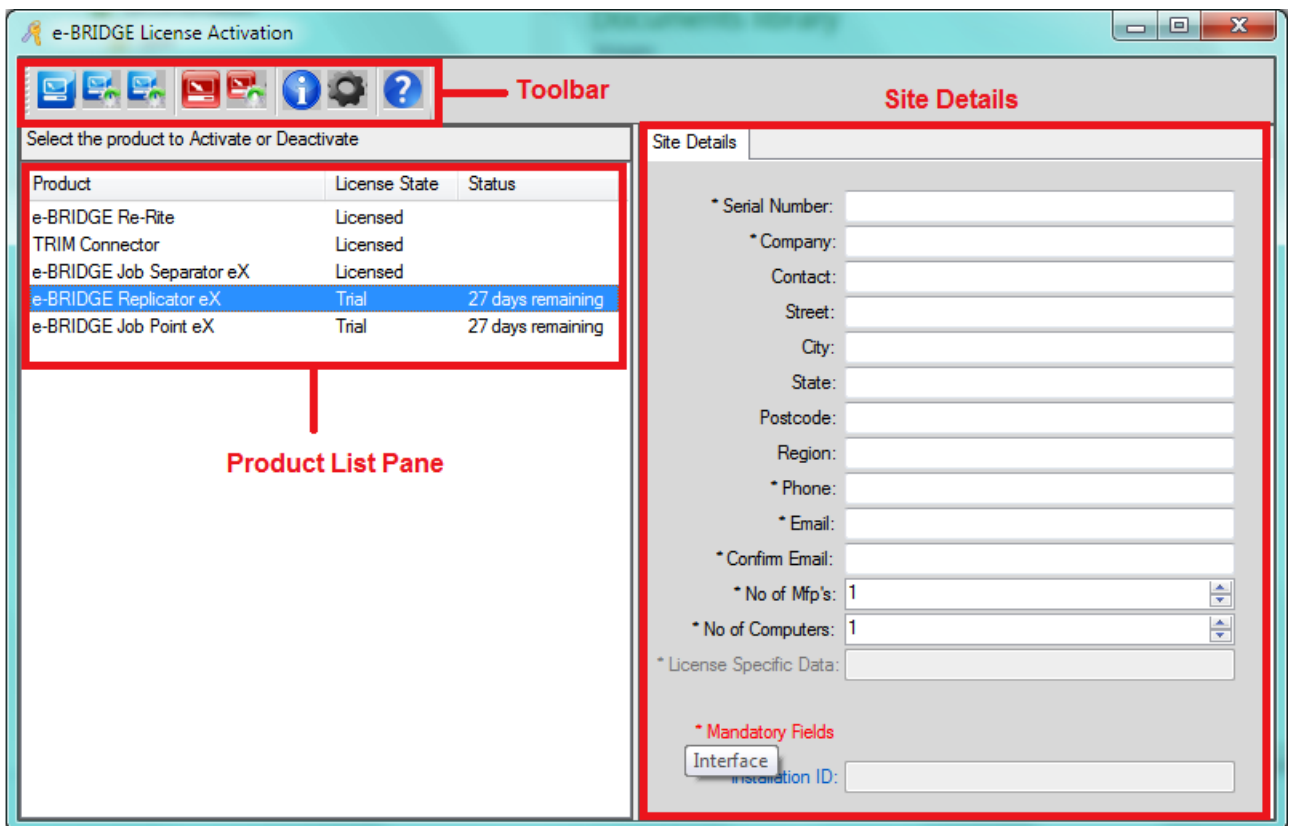

## License Activation Client

This Windows based application offers an easy to use interface to manage all your software license activation and customer registration tasks.

The License Activation Client can be launched from the Start Menu, located in the “e-BRIDGE” and “Licensing” folders.

### 1. e-BRIDGE License Activation Client main window

The main window is comprised of the following UI elements:

### 1.1. Toolbar

This provides access to all the tasks of the e-BRIDGE License Activation Client application.

	<b>Activate Online</b> Enables a user to activate software automatically by sending the product and customer information to the License Server. Requires an active internet connection.
	<b>Generate Offline Activation Request</b> Enables the user to generate a License Activation Request file to be used on a machine with internet access. This file is uploaded to the License Activation Website which then generates a License Activation Response file that is taken back to the original machine. The URL of the License Activation Website is: <a href="http://copiers.toshiba.com/apl_registration">http://copiers.toshiba.com/apl_registration</a> .
	<b>Process Offline Activation Response</b> Enables the user to select a License Activation Response file generated by the License Activation Website. Successful processing of this file will activate the license and populate the Customer Details.
	<b>Deactivate Online</b> Allows a user to deactivate a license automatically by sending the installation information to the License Server and releasing the license for future activations. Requires an active internet connection. License Deactivation is only available for Node Locked Licenses which have already been activated.
	<b>Generate Offline Deactivation Request</b> Enables the user to generate a License Deactivation Request file to be used on a machine with internet access. This file is uploaded to the License Activation Website which then releases the license for future activations. License Deactivation is only available for Node Locked Licenses which have already been activated.
	<b>Error Log</b> Click this button to open the error log file. This file contains detailed information regarding any errors using the e-BRIDGE Product Licensing System.
	<b>Settings</b> Click this button to configure settings for online (de)activation and language selection.

	<b>Help</b> Click this button to launch the Help documentation
---	---

### 1.2. Product List Pane

This pane allows the user to view the list of all products installed on a machine. It shows the activation state of each product installed on this system as well as the status of the license. If the license is a trial license then the remaining days are displayed in the status column. If your license status is shown as invalid, then see the log file for further information

### 1.3. Site Details Tab

This pane contains the customer registration information used by Toshiba TEC support throughout the lifetime of the customer's support contract. Before a license has been activated, this pane is where the following data is entered:

Serial Number

Customer registration data

Copy protection data (for subnet and domain locked licenses only)
