Trial period and license type

This software is available for a **30-day** trial period including the day when it is first installed. To use it after this period, you need to register the license.

The license system is as follows.

License type	Product name
e-BRIDGE Job Point eX with Node License	GB-1560Node
e-BRIDGE Job Point eX with Subnet License	GB-1560Subnet
e-BRIDGE Job Point eX with Domain License	GB-1560Domain

Each license type is described as follows.

e-BRIDGE Job Point eX with Node License

This license can be used only for one PC.

e-BRIDGE Job Point eX with Subnet License

This license can be used only for PCs with the same IP address segment as the one for which the license is registered. (More than one PC is possible.)

This product is not supported for changing the subnet mask in PCs.

This can be operated under the subnet mask "255.255.255.0" (up to 254 PCs) regardless of other subnet masks set in a PC.

Example:

IP address segment of a PC for which the license is registered	Same IP address segment <192.168.1.x>	Different IP address segment <192.168.2.x>
<192.168.1.x>	Available	Not available

e-BRIDGE Job Point eX with Domain License

This license can be used only for PCs belonging to the same domain as the one for which the license is registered. (More than one PC is possible.)

Example:

Domain of a PC for which the license is registered	Same domain <Domain.com>	Different domain <Domain.jp>
<Domain.com>	Available	Not available

If characters other than the ASCII code are included in the customer's domain name, this license cannot be used. In such a case, use "e-BRIDGE Job Point eX with Subnet License".
