

BV410D BV420D

Desktop printer series

Product brochure

- Toshiba's most advanced desktop print technology was incorporated into the sleekest case design for ultimate user experience.
- Coming with a new powerful and scalable system architecture the BV400D series future-prooves your investment.
- With a broad set of standard interfaces and optional Wi-Fi or Bluetooth, the BV400D series easily integrates into even the most complex IT environments.

The ever-changing workplace

Delivering reliability to meet future challenges

Every business is unique. That's why Toshiba offers the most reliable print solutions that meet all your labelling requirements, day after day. Toshiba barcode printers provide connectivity and solutions to adapt to the needs of an ever-changing workplace.

Toshiba's barcode printers continue to deliver on our promise of Together Information – our commitment to collaborate with clients to provide tailored, cost-effective solutions that meet your evolving workplace needs.

The strong combination of excellent design & advanced connectivity

Toshiba's most advanced desktop printer consists of five different models, all with a small footprint, intelligent design which brings simplicity and efficiency raising the user experience the next level. Latest connectivity features enable this printer to be integrated into various networks and, thanks to print language emulations, into almost every print scenario. The robustness of the printer offers high print quality and performance rivaling the majority of mid-ranged printers.

Smooth design yet outstanding

Designed with the user in mind

Ultimate compactness was a core design criteria that led to the creation of the B400D desktop printer range, suitable for versatile applications. With its small footprint and clean case these printers suit retail shops, offices or any workplaces where space is a premium.

Usability clear as day

The sleek design of the BV400D series eliminates all redundant fussiness and concentrates on delivering clarity of operation to the user. The integrated LCD screen of the BV410D provides clear information and notifications that are emphasised by the colour change of the status LEDs. The user can change main settings directly on the printer whereas the remote operator connections allows the full printer setup from afar.

A model to meet every need

With models available in 203 and 300 dpi versions, also available in black or white cabinets, the BV400D series suits to fit into almost any operating environment. With the addition of a linerless version enabling the printer to print on adhesive labels with no backing paper reducing waste and keeping the working environment safe and clean.

Future-ready operating system

The redesigned OS platform supports multi print language emulation, which enables simple integration into complex IT environments. This platform adds not only performance but extends the connectivity and adaptability of the BV400D to keep pace with the requirements of an ever-changing workplace.

Speed & efficiency

A series of features makes sure your desktop printer is ready to print labels and receipts quickly and efficiently at the touch of a button. The BV400D's productivity is maximised by market leading print speeds of up to 7 inches per second and an advanced CPU which processes your data even quicker. Thanks to the rapid boot-time the printer is ready almost instantly at power-on.

Delivering reliability to meet future challenges

Designed to endure the toughest retail environments the renowned reliability of the BV400D printers eliminates almost any downtime – day after day. With optional built-in AC adapters the Toshiba desktop printers are the perfect fit, ensuring a safe work place.

Key highlights

- Market leading throughput with up to 7 ips
- Compact & sleek design with a small footprint
- Designed, developed & built by Toshiba
- Intuitive & clear user experience
- Vast print languages & emulations
- Huge performance & functionality at a truly low total cost of ownership
